

10 SEP 1969

MEMORANDUM FOR: Mr. George C. Denney, Jr.
Deputy Director
Bureau of Intelligence and Research
Department of State

SUBJECT : Comment on INR Memorandum, "SALT:
Soviet Attitudes and Tactics,"
19 August 1969

1. This will be a useful memorandum for the U.S. SALT delegation. The author has delineated the issues and identified the uncertainties with considerable care. On most points we are in complete agreement with his judgments.

2. There is, however, one section in the paper where I think the perspective is slightly off the point. This is discussed in the attachment. I suggest a deletion of three paragraphs in order to avoid a possibly misleading impression about the Soviet understanding of strategic weapons.
